**A message from Jan**

Dear Friends of GCADV,

As many of you know, October was Domestic Violence Awareness Month. During his yearly proclamation President Obama challenged The United States to, "recommit to doing everything in our power to uphold the basic human right to be free from violence and abuse." Last month, many of our member domestic violence programs and shelters held vigils to honor the lives of those lost to domestic violence and to celebrate the strength of domestic violence survivors. These vigils are a reminder of why our collective work is so important.

GCADV is committed to engaging communities, organizations, and systems across Georgia to create change in the prevention, intervention, and response to domestic violence. Domestic violence does not exist in a vacuum, rather, it intersects with race, gender, class, sexual orientation, and disability. This means that in order to end domestic violence, we, as an organization and as an engaged community, must address these intersections.

Our goal for 2017 is to engage diverse social justice movements across the state in conversations and a call to action about how we can work together to bring those in the margins to the center of our work. We must be vigilant in bringing the voices of the most marginalized and the most at risk of violence to the table. We must be willing to listen to and reflect on their experiences and needs and ensure our trainings and programs reflect what we hear. Our charge is to build the capacity of our member organizations, partners, and allies to ensure safe, compassionate, inclusive, and accessible services for **ALL** domestic violence survivors and their children exposed to violence throughout the state of Georgia.

GCADV invites you to join us in the movement to end violence against women. Your voice, your energy, and your resources can change many lives. Please take a moment to visit our website, [gcadv.org](http://gcadv.org), to learn more about us and our member programs. Sign up to volunteer at one of our events. Did you know that...

- Since 2010, 537 Georgians have been killed by firearm in domestic violence-related incidents.
- Though 27 states (including Alabama, Tennessee, South Carolina, Louisiana, and Texas) have state laws prohibiting convicted domestic abusers from having guns, **Georgia does not.**

For the 2017 legislative session **GCADV plans to introduce legislation to replicate, in Georgia state law, the federal law which prohibits those convicted of domestic violence misdemeanors and those subject to domestic violence protective orders from possessing firearms.**

GCADV also hopes to identify members of law enforcement, prosecutors, and judges who are willing to testify at the GA General Assembly in support of this bill. If you are aware of individuals willing to champion the issue of keeping firearms out of the hands of batterers, please send their names and contact information along to either Allison at [asmith@gcadv.org](mailto:asmith@gcadv.org) or Shenna at [smorris@gcadv.org](mailto:smorris@gcadv.org).
